Home and Small Business Generators

RCL Product Line – 24, 38, 48 and 60 kW

Exceptionally powerful, surprisingly quiet. Whatever the size of your home or business, there's a reliable KOHLER® generator to match. These four models feature robust 1800-rpm liquid-cooled engines and patented technology that keep sound levels to a minimum. The 24 kW adds a compact new option to the lineup.

24RCL

Quality – backed with a premium limited warranty.

Every KOHLER generator is meticulously quality-tested for total reliability. It comes with our premium limited 5-year, 2,000-hour protection, plus a corrosion-resistant aluminum enclosure that's built to last.

Extremely quiet operation.

Patented technology makes operation surprisingly quiet and neighborhood-friendly, with sound full-speed levels similar to a typical central air conditioner and weekly exercises as quiet as a normal conversation.

Protect your electronics.

Outstanding voltage and frequency regulation and ultra-low levels of harmonic distortion provide high-quality power that won't harm sensitive electronics or expensive appliances.

Easy to install and maintain.

A simple terminal block helps streamline installation, and single-side service makes these generators easy to maintain.

Compatible with advanced options.

Models are equipped with an RDC2 controller to manage both the generator and the transfer switch. The RDC2 is compatible with the Load Control Module, Programmable Interface Module and OnCue® Plus Generator Management System.

Name	24 kW	38 kW	48 kW	60 kW
